Purchase & activation

FlowPack is paid in full upfront and is not a recurring subscription. Submitting a package request does not complete a purchase. FlowTherapy will confirm your selection, payment, activation date, and exact expiration date before you begin using the package.

Using your sessions

Each completed appointment redeems one session at your purchased session length. Sessions include personalized therapeutic care, no separate deep tissue charge, and eligible Recovery Lab tools. Appointments are subject to availability; please schedule within your package’s validity period.

Validity & expiration

Four-session packages are valid for six months; six-session packages are valid for twelve months. Your purchase confirmation will state the applicable start and expiration dates. Plan your appointments so all sessions are used before that expiration date.

Sharing & gifting

Eligible unused sessions may be shared or gifted. Arrange the transfer through FlowTherapy before the recipient books. Transferred sessions retain the original package expiration date. Each recipient must complete their own intake and consent requirements before receiving treatment.

Payment & benefits

FlowPack purchases are nonrefundable. Package pricing applies to the included sessions; additional services and enhancements are purchased separately. FlowPack does not include FlowPass membership benefits or FlowPass enhancement discounts.

Changes & missed appointments

Regular booking, cancellation, no-show, and late-arrival policies apply. Please provide at least 24 hours’ notice to cancel or reschedule. A late cancellation or missed appointment forfeits any required $50 appointment deposit.

Review before purchase

Review these terms and your confirmed package details before completing payment. Contact FlowTherapy with questions about your balance, sharing a session, or scheduling before expiration.
